

ESTIVA CURVED FRAME

SIGN SOLUTION GUIDE

ESTIVA

ESTIVA Curved Way-Finding System

- Easy change over graphics
- Wide range of sizes
- Comprehensive solutions
- Easy to adopt into most environments

Estiva sign frames are not just any sign; it's a subtle statement of style and functionality. This diverse line of frames are designed to seamlessly integrate into a wide variety of interior spaces. Imagine them gracing the walls of a modern office, a sophisticated hotel, a clean-lined clinic, or even a stylish boutique. The possibilities are truly endless!

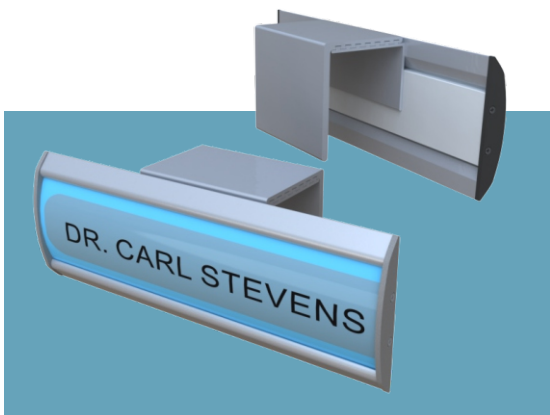

The sign itself is a masterclass in understated elegance. Its design features an anodized aluminum frame, providing durability and a sophisticated metallic sheen. The insert, which will hold the actual message schedule, is encased within an optional non-glare clear cover—a perfect match for any high traffic areas. Colourful graphics adds a touch of visual interest, highlighting essential information like the room locations, directions and egress routes. The overall effect is clean, modern, and highly professional.

The versatility of this sign design is its greatest strength. It can easily transition between different interior design styles, from minimalist to traditional, making it a perfect choice for any space where clear and stylish identification is required. Imagine finding the perfect room, quickly and efficiently, in a bustling hospital, or easily locating your meeting room in a large office complex.

Beyond the aesthetics, the sign is durable and built to withstand daily use. The aluminum frame ensures longevity, while the clean design makes it easy to maintain and keep looking fresh. The subtle curvature adds a touch of sophistication, setting it apart from ordinary nameplates.

So, whether you're looking for a stylish way to identify rooms in a corporate setting, a practical solution for a healthcare environment, or a touch of elegance for a hospitality space, this room ID sign offers both functionality and style, ensuring that your space is not only functional but also aesthetically pleasing.

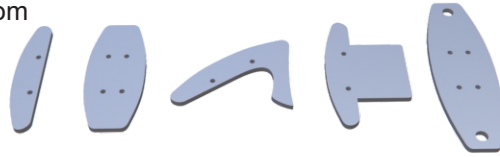

Standard finishes for Estiva profiles are silver and black anodized. Custom sizes and finishes are available upon request.

Extruded Aluminum Profiles

Estiva sign frames start with an extruded curved profile. We offer a wide range of width and can custom cut to most lengths.

Sizes listed throughout this Catalogue are just a few examples.

Ask a sales representative for custom sizes not listed within these pages.

End caps:

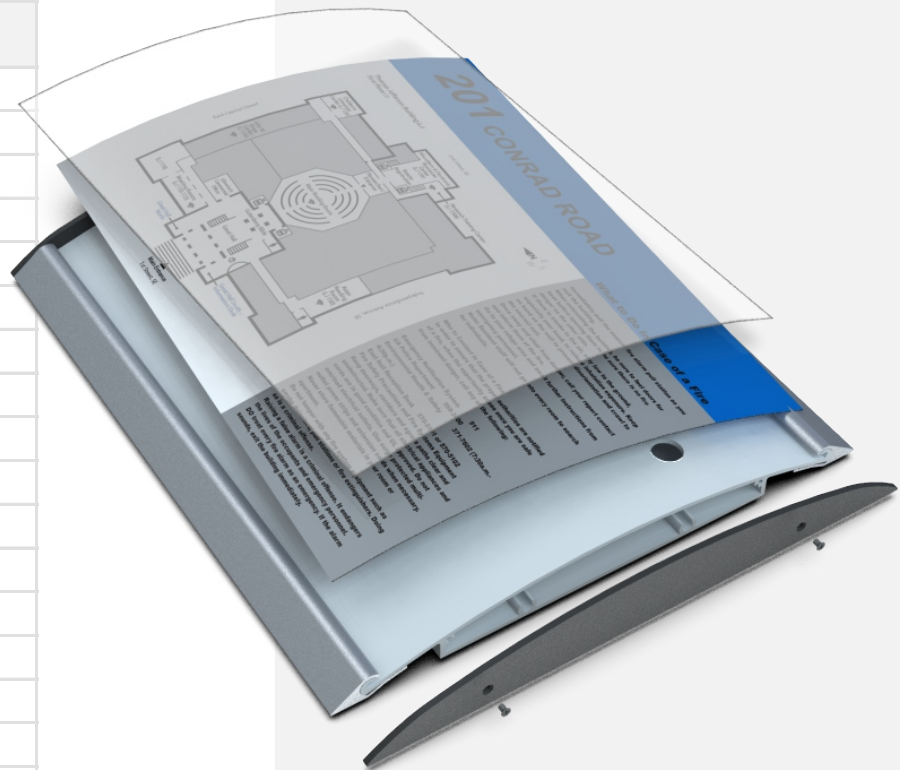

Estiva sign frames are offered with optional plastic or metal end caps depending on size and application. Discrete colour matched screw provided to prevent vandalism and misuse.

Plastic ABS end caps are available in black or grey with aluminum and steel bases painted black(black anodized) or alternatively silver(clear anodized). Custom painted colour available upon request.
